

BAMBUNIQUE

NATURE FOR NATURE

Our insistence on quality of bamboo and product development to ensures that the resulting materials are not only beautiful but also remain useable for many years to come.

COLLECTION BOOK

ABOUT US

Natural Unit was established in 2010, as manufacturer and exporter of furniture, decorative items, especially the most items are made of natural wood material and beyond. And it also has produced and developed the bamboo materials to the upper class for interior & decor, furniture and more under its name "Bambunique" with unique style.

We have supplied our furniture & decorative items with good quality for Hospitality Projects, Residential Projects, and Retail. We will infuse the essence of the brand values into our client's products. Moreover, we offer design service that enhance our client brands.

Quality and durability are essential for our mission that we work on. And the quality of manufacturing that you expect from us.

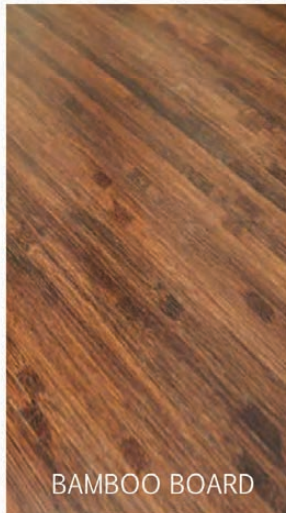

OUR BAMBOO

THAI BAMBOO species under commercial name "PHAITONG" or under Sciences name "DENDROCALAMUS ASPER." It is the strongest Asian bamboo. And it has long fiber and strong fiber which suitable for exterior construction work.

The reason being of bamboo culm for 4-5 years old has sufficiently hardened (lignified) maximizing the physical properties of the bamboo. These mature poles also shrink and crack less when dry and have lower starch and sugar content the decreases the attractiveness for insects and fungi.

BAMBUNIQUE MATERIALS

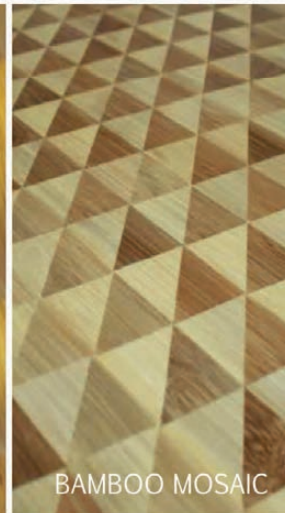

BAMBUNIQUE MATERIAS are concern and control the product quality in production process; treatment by chemical which does not contain Hazards Substances to preserve bamboo and get rid of termite, fungi, mold, including heat treatment to control moisture content in bamboo, pressing bamboo with high quality of glue until coloring with high quality of stained color. Bamboo is substitute material of other hardwood; teak wood, rose wood etc. in hardness.
