

BAMBUNIQUE

NATURE FOR NATURE

Our insistence on quality of bamboo and product development to ensures that the resulting materials are not only beautiful but also remain useable for many years to come.

COLLECTION BOOK

ABOUT US

Natural Unit was established in 2010, as manufacturer and exporter of furniture, decorative items, especially the most items are made of natural wood material and beyond. And it also has produced and developed the bamboo materials to the upper class for interior & decor, furniture and more under its name "Bambunique" with unique style.

We have supplied our furniture & decorative items with good quality for Hospitality Projects, Residential Projects, and Retail. We will infuse the essence of the brand values into our client's products. Moreover, we offer design service that enhance our client brands.

Quality and durability are essential for our mission that we work on. And the quality of manufacturing that you expect from us.

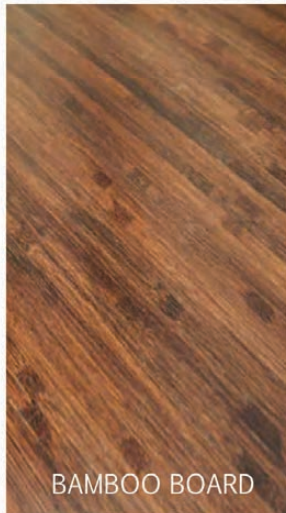

OUR BAMBOO

THAI BAMBOO species under commercial name "PHAITONG" or under Sciences name "DENDROCALAMUS ASPER." It is the strongest Asian bamboo. And it has long fiber and strong fiber which suitable for exterior construction work.

The reason being of bamboo culm for 4-5 years old has sufficiently hardened (lignified) maximizing the physical properties of the bamboo. These mature poles also shrink and crack less when dry and have lower starch and sugar content the decreases the attractiveness for insects and fungi.

BAMBUNIQUE MATERIALS

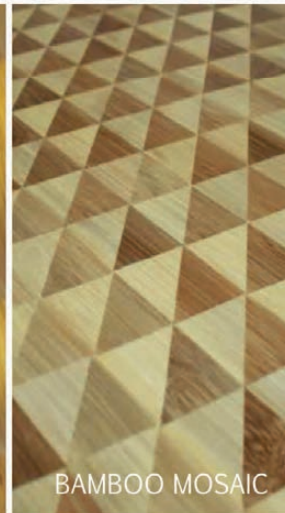

BAMBUNIQUE MATERIALS are concerned and control the product quality in production process; treatment by chemical which does not contain Hazardous Substances to preserve bamboo and get rid of termite, fungi, mold, including heat treatment to control moisture content in bamboo, pressing bamboo with high quality of glue until coloring with high quality of stained color. Bamboo is substitute material of other hardwood; teak wood, rose wood etc. in hardness.

BAMBOO BOARD

BAMBOO CURVE

BAMBOO MOSAIC

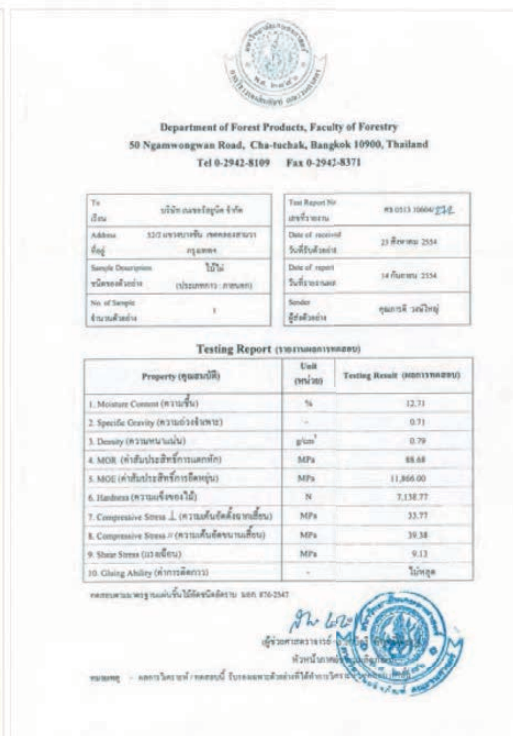

BAMBOO POLE

Characteristic of materials

Unlimited forming	: straight and curve
Various thickness	: support different used for ceiling and walling
Long lasting	: preservative against termites
Uniquely attractive	: distinctive natural color, pattern, and texture
Durable	: strong and resilient
Moisture & stain resistant	: suitable for use in damp area

Certificate of material excellence by Material Connexion

Standard base on TISI 876 - 2547 (Thai Industrial Standards Institute)
FLAT PRESSED PARTICLEBOARDS

FI-ST-DC012
TETHER : DINING CHAIR

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Bamboo pole and bamboo curve
SEATING : Solid bamboo board
DIMENSION : W57 x D55 x H75 cm.

FI-ST-DC014
LA TETHER : DINING CHAIR

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Solid bamboo and component of solid bamboo cuve board
SEATING : Hight density foam cover with 100% polyester fabric
DIMENSION : W57 x D55 x H75 cm.

FI-ST-DC011
CREEP : DINING CHAIR

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Bamboo pole
SEATING : Hight density foam cover with 100% polyester fabric
DIMENSION : W60 x D58 x H82 cm.

FI-ST-AM014
CREEP : ARMCHAIR

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Solid bamboo and bamboo pole
SEATING : Hight density foam cover with 100% polyester fabric
DIMENSION : W75 x D68 x H67 cm.

FI-ST-EC002
HUG : EASY CHAIR

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Bamboo pole with polished surface
SEATING : High density foam cover with 100% polyester fabric
DIMENSION : W80 x D72 x H78 cm.

FI-ST-EC007
HUG : EASY CHAIR

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Bamboo pole with polished surface
SEATING : High density foam cover with 100% polyester fabric
DIMENSION : W80 x D70.5 x H78 cm.

FI-ST-SO003
HUG : OTTOMAN

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Bamboo pole with polished surface
SEATING : High density foam cover with 100% polyester fabric
DIMENSION : W62 x D66.5 x H38 cm.

FI-ST-AM006
GARDEN LINE : ARMCHAIR

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Solid bamboo curve and bamboo pole
SEATING : Dry fast foam cover with outdoor fabric
DIMENSION : W65 x D59 x H74 cm.

FI-ST-LC003
RA-DEE : LOUNGE CHAIR-B

MATERIAL Thai Bamboo (Dendrocolamus asper)
STRUCTURE Bamboo pole with polished surface and handcraft of bamboo tie
SEATING Hight density foam cover with 100% polyester fabric
DIMENSION W80 x D80 x H65 cm.

FI-ST-LC006
RA-DEE : LOUNGE CHAIR-C

MATERIAL Thai Bamboo (Dendrocolamus asper)
STRUCTURE Bamboo pole with polished surface and handcraft of bamboo tie
SEATING Hight density foam cover with 100% polyester fabric
DIMENSION W80 x D80 x H65 cm.

FI-ST-LC008
COTTA : LOUNGE CHAIR

MATERIAL Thai Bamboo (Dendrocolamus asper)
STRUCTURE Bamboo pole and Solid bamboo
SEATING Hight density foam cover with 100% polyester fabric
DIMENSION W80 x D75.5 x H75 cm.

FI-ST-LV007
COTTA : LOVESEAT

MATERIAL Thai Bamboo (Dendrocolamus asper)
STRUCTURE Bamboo pole and solid bamboo
SEATING Hight density foam cover with 100% polyester fabric
DIMENSION W150 x D75.5 x H75 cm.

FI-ST-LV001
GARDEN LINE : LOVE SEAT

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Bamboo pole and solid bamboo curve
SEATING : Dryfast foam cover with woven outdoor fabric
DIMENSION : W150 x D74 x H72.5 cm.

FI-ST-LV003
HUG : LOVE SEAT

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Bamboo pole with polished surface
SEATING : Hight density foam cover with 100% polyester fabric
DIMENSION : W120 x D65 x H83 cm.

FI-ST-LV004
RA-DEE : LOVE SEAT

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Bamboo pole with polished surface
SEATING : Hight density foam cover with 100% polyester fabric
DIMENSION : W150 x D80 x H65 cm.

FI-ST-LV005
RA-DEE : LOVE SEAT

MATERIAL : Thai Bamboo (Dendrocolamus asper)
STRUCTURE : Bamboo pole with polished surface
SEATING : Hight density foam cover with 100% polyester fabric
